ABOUT ME

As a results-driven Back-end Developer with two years of experience, I specialize in designing and implementing scalable and efficient web applications. I am proficient in a range of technologies, including Node.js, Laravel, and ASP.NET, with expertise in MongoDB and Express. My key strengths lie in strong problem-solving skills, analytical thinking, and a deep understanding of data structures and algorithms. I am committed to writing clean, maintainable code that adheres to industry best practices and am an effective team player with excellent communication abilities."

WORK EXPERIENCE

FREELANCER – DAMASCUS, SYRIA
BACK-END DEVELOPER (NODE.JS, LARAVEL, ASP.NET) – 2022 – CURRENT

- Developed a **RESTful API for Blog Post Management** using Node.js, Express, and MongoDB, featuring:
  - CRUD operations, image uploads, and secure authentication.
  - Integration of **Postman** for API testing and documentation.
  - GitHub Repository: restApi-blog.
- Built back-end functionalities for **Dhad Platform** (educational platform) using Laravel, including:
  - Database schema design.
  - API development for content and user management.
- Created back-end systems for:
  - **Salon App** (ASP.NET): Implemented booking system and service management.
  - **Online Shop App** (ASP.NET): Developed product management, shopping cart, and order processing features.
